

dishwash dosing systems

Commercial-quality dishwashers need durable, hardworking chemical dosing systems to perform at their best. That's why customers all over the world choose Brightwell systems to automate their dishwasher chemicals.

Our dosing systems fit a huge variety of commercial dishwashers – including single-tank washers, tunnel washers, conveyor dishwashers and glass washers.

Standard Dosing System Features Include:

- Access codes for added security
- Enhanced multi-level programming
- Multilingual support in many languages
- Option for brand promotion on wall-mounted enclosures.

Need Free Product Training and Support?

All our electronic equipment comes with optional free training courses to teach you the basics, and free telephone support during European working hours.
